

## Serie Medium

# 355A Nylon Cable Chain with removable frames

### Inner height (D) 31 mm

Double share single link joining construction with large anti-friction single-pin. Frames removable from inner radius. Vertical separators are available. Wide frames on outer radius offer good protection. Due to its design with double-share lateral side, the chain is very robust, meanwhile offering very low friction.

Separator	
- Unassembled	Part.no S356
- Assembled	Part.no S356MG

Pin	
	Part.no PG355

### Technical characteristics when self-supported

Speed	10 m/s
Acceleration	50 m/s <sup>2</sup>

For higher requirements please consult our technical dept.

R	H	N	M
mm	mm	mm	mm
75	194	140	315
100	244	165	395
150	344	215	555
200	444	265	710

Length of chain (L)  
Half travel distance ( $\frac{LS}{2}$ )  
plus length of curve (M)

$$L = \frac{LS}{2} + M$$

### Self-Supporting Capacity Diagram

The maximum length of the self-supporting capacity ( $\frac{LS}{2}$ ) in relationship to the weight of the cables and hoses contained per linear metre.

### End Brackets

The end brackets set allows the two ends of the chain to be attached to the equipment.

#### Nylon Type

Fig. A  
The chain can be fixed frontally, inner or outer radius, (Fig. A)

#### Bright Zinc Plated Steel Type\*\*\*

Fig. B  
Chain fixed outside the radius. (Fig. B) See end brackets mounting variations page 51.

The red marking in the diagram area considers the difference of weight between various widths of chain.

For applications with  $\frac{LS}{2}$  and weights not included in the area of the diagram showing self-supporting capacity, verify the possible use of support rollers (see page 30).

Chain Type	F mm	Chain Type	F mm
355A C=45	59	355A C=45	50

\*\*\* Available on request in stainless steel

## Serie Medium

# 355A Nylon Cable Chain with removable frames

How to open the cover.

Special tool to remove the connecting pivots:  
Part Number P2010.
